

# The comfort zone you don't want to leave

## SOFT SEAMS FOR THAT COMFORTABLE FEEL

A pioneering product that redefines soft seams for intimate and body hugging apparels. Comfeel™ is a synthetic textured yarn specifically designed to be used as a looper thread for the ultimate soft seam.

Its textured filaments are ideal for overlock and cover seam machine loopers providing the necessary softness and comfort for **next to skin** seams.

High extensibility and seam strength result in optimum seam security and low shrinkage which ensure there is no seam distortion after washing.

### Main Applications

With inheritant elasticity, mechanical stretch & supreme softness, Comfeel™ ensures a perfect fit

**Swim Wear**  
(High Resistance to Hypochlorite)

**Leisure Wear**

**Knit Wear**

**Baby Wear**

### Features and Benefits

#### Comfort

Extra seam cover and softness for comfortable seams, skin friendly, it provides additional ease for a sensitive waist.

#### Durability

Low shrinkage ensures no distortion post wash. High resistance to colour fastness.

#### Convenience

Can be used in loopers without any alterations to the machine. No breakage during sewing results in a lowered CMT cost.

### Specifications
